

HAFIZ MUBASHIR SIKANDER

MOBILE APP DEVELOPER

+92-325-2268373 • muhammad.mubashir.sikander@gmail.com • [LinkedIn](#) • [Portfolio](#)

SUMMARY

Mobile App Developer with hands-on experience in Flutter, Dart, Firebase,GetX, Riverpod and Hive. Built cross-platform mobile apps with offline-first features, API integration, and role-based user management. Proven ability to deliver production-ready apps, improving operational efficiency. Strong problem-solving, debugging, and collaborative skills to drive end-to-end mobile solutions.

SKILLS

Programming: C++, Java, C#, Dart, kotlin

Databases: SQL (MySQL, SQLite), Firebase, Hive, Shared Preferences

Tools & Platforms: GitHub, VS Code, Android Studio

Soft Skills: Communication, Problem Solving, Teamwork

PROFESSIONAL EXPERIENCE

Flutter Developer

Virtuenetz Pakistan – Software Company

- Designed and developed real world mobile applications.
- Integrate Firebase services including Firestore, Realtime Database and Authentication to real-time features and secure access.
- Work closely with designers, QA Team and backend teams to consume Rest API's, resolve Bugs and improve overall app stability and performance.
- Contributed across the complete app lifecycle including UI Implementation, business logic and Self-QA.

PROJECTS

NKCC – Mobile App

Aug 2025 – Sep 2025

Asset Management App in Flutter

- Developed cross-platform Asset Management Mobile App in Flutter to track, assign & manage organizational assets.
- Integrate the role based access to manage assets for different user types (Employee, Supervisor & HR).
- Built a Power BI dashboard highlighting high-risk borrower segments by income, age, and loan type.
- Followed Scalable architecture & clean code practices to support future enhancements.

Technician ID – Tablet App

Nov 2025 – Jan 2025

Tracking survey status of Horses

- Developed a Flutter Application for Tablets with Offline/Online Support, storing surveys data locally using Hive & syncing automatically with the server when the internet is available.
- This app is developed to record and manage the surveyed horse data in Canada.
- Followed Scalable architecture & clean code practices to support future enhancements.

United Ceres College Management – Mobile App (*Deployed on **PlayStore** & **AppStore***)

Feb 2025 – Apr 2026

Education & Agent Management ERP

- Implemented role-based access and user management for agents, students, and admins, ensuring secure and personalized app functionality.
- Integrated secure authentication APIs using Dio and Dio Cookie Manager, Implementing reliable login/session handling and backend communication.
- Followed Scalable architecture & clean code practices to support future enhancements.

Petiggo – Mobile App**Mar 2025 – Present**

Pets Food Market Place

- Enhanced application security and personalization by implementing role-based access control, using structured user permission mapping, resulting in a more secure and tailored user experience.
- Strengthened authentication and session reliability by integrating secure APIs, leveraging Dio with Cookie Manager for persistent session handling, ensuring seamless backend communication and improved login stability.
- Optimized state management and app scalability by implementing reactive architecture, using GetX for efficient state handling and dependency management, resulting in cleaner code and faster UI updates.

EDUCATION**Bachelor of Science in Computer Science****Sep 2022 – Jul 2026***Khwaja Fareed University of Engineering and Information Technology*
